While the process of quieting the troubled waters by scattering oil on the surface has been known and practiced for a long time, there are constantly new means being devised for the application of the oil, says the Chicago Chronicle. The latest thing of this character is the "bottle gun," which has been invented by Vice Admiral Guimares, of the Brazilian navy, who proposes to scatter oil on the water ahead of the boat by its means. The gun is a handy little piece, mounted on a pivot carriage, which is bolted down to the deck so that there is no recoil. It is made of bronze, but the chamber at the breech, which contains the propelling power, is of steel. The charge, in a brass central-fire cylinder, is loaded into the gun from the rear, as it is a breech-loading piece, with an interrupted screw plug to close it. The bore of the gun is of much greater diameter than the powder chamber, and the projectile, which is nothing more than an ordinary wine bottle filled with sawdust steeped in oil, is entered at the muzzle and rammed home. The advantage of this is obvious, since there would never be any difficulty in providing a supply of these fragile projectiles. When the gun is discharged the bottle is, of course, broken, and its contents scattered over the water for a considerable distance. If fired ahead to form a smooth pathway for the advancing vessel, it requires to be discharged every five minutes, but, if the vessel is stationary or lying to, one round every 20 minutes is said to be sufficient.

GULLIBILITY OF WOMEN.

Ask Mrs. Chadwick What She Thinks About Their Susceptibility to the Wiles of Sharpers.

Women naturally are rather sensitive about being officially or otherwise classed with idiots and criminals. Equally naturally they resent the implication that they are particularly gullible and hence easily susceptible to sharpers who would play upon their highly organized nervous temperaments. In a recent attack upon the patent medicine business, it was implied that women are the victims of patent medicine advertisers, because they are so much more gullible than men. Well, perhaps they are more easily fooled, but we doubt if Mrs. Chadwick, if she were asked her opinion, would say so. As a matter of fact, women with their wonderful intuitions are apt to be pretty good judges of what is so and what is not so.

For this reason, women are not likely to be long imposed upon by misrepresentations concerning patent medicines or anything else, and when a patent medicine business has steadily grown for thirty-eight years it necessarily means that it has won the confidence of the women as well as of the men who have been and are its grateful patrons. Such a business as that described here is conducted by Dr. Ray V. Pierce of Buffalo, whose name is a synonym for honesty and honor in the business and professional world. Dr. Pierce has a great establishment in Buffalo, which is one of the chief points of interest to visitors in that city. It consists of a large laboratory for the manufacture of the medicines which bear his name and a hospital in connection therewith for the treatment of various ailments. This hospital is taxed to its full capacity at all times by patients who come from all parts of the country for treatment by the large staff of graduated specialists. In the laboratory the famous Dr. Pierce remedies are compounded from pure roots, herbs and barks of known properties and for special purposes. The charge was recently made that alcohol was the principal ingredient of these medicines. The journal which made that baseless charge was promptly sued for \$200,000 damages. An immediate retraction was the result.

Dr. Pierce is not only one of the principal manufacturers of patent medicines in the world but he is also one of the largest advertisers. He knows that the essence of dealing with the public is to let the public know that you have something which it wants, which it needs. But Dr. Pierce also knows that truth and honor must be the basis of all business and he permits no misrepresentations in any department of his business, not even in the advertising. Thousands of men and women have found the truth of this statement in their dealings with Dr. Pierce, a large part of whose business is conducted by correspondence. The charge has been made that this feature of the patent medicine business is a fake, as well as other features, that letters from patients do not receive attention from physicians, that they are made the subject of flippant comment by clerks who read them and prescribe remedies. This charge is absolutely untrue so far as Dr. Pierce's business is concerned. He employs a large number of highly trained physicians and surgeons for this work and they give quite as careful attention to all cases coming to them as does the private practitioner. All letters are treated with the utmost confidence and are not subject to miscellaneous inspection. The proprietary remedies are not prescribed for all patients, but prescriptions are given just as any doctor would give them. And the names and addresses of patients are not sold to others for sending out circulars.

In short, Dr. Pierce's business is what it is because Dr. Pierce has always done just what he advertises to do and because his medicines are just what they are advertised to be.

UNCOMMON WISDOM.

Some Hopkinsville People Profit By Neighbor's Experience.

It's a wise man who profits by the experience of his friends and neighbors. Here is a chance to do it and every man, woman or child in Hopkinsville who knows the misery of a bad back, the nervousness and restlessness caused by kidney complaint or the annoyance of urinary disorders, will show uncommon wisdom to profit by this citizen's advice.

J. W. Pritchett retired grocer of 752 East 7th St., says: My back has given me a great deal of trouble. The pain was not continually severe, but came on by intermittent spells, which were sometimes very painful especially after over-exertion of any kind. Being constantly on the outlook for something to relieve me, I happened to read of Doan's Kidney Pills, and was so impressed with the testimonials as to their worth, that I procured a box at Thomas & Trahern's drug store. The pills benefited me in every way and I hope that my endorsement will be the means of extending relief to some other sufferer.

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

The Southwest.

A Grand Country for Homeseekers and Investors.

Excursion Rates Twice a Month.

Arkansas, Louisiana and Texas offer the greatest inducements for persons desiring to own their homes. Cheap land, producing almost anything that can be grown anywhere, mild climate, good schools, good water, healthful surroundings, and a growing country are some of the advantages.

Unexcelled for raising fruits and vegetables for early markets. Land that can be bought for \$5 to \$10 per acre can be made to yield \$100 to \$200 per acre in orchard and truck farm.

First and third Tuesdays of each month we sell homeseeker's tickets from Memphis and Cairo at one fare plus \$2 for the round trip.

April 4th and 18th special low round trip rates—less than one way fare—\$15 and less from Memphis and Cairo to points in Texas. Low rates in proportion from points East of Memphis and Cairo.

Literature descriptive of above country and information about rates will be mailed upon request.

Look After Your Contracts.

Farmers must call at once at Judge W. T. Fowler's office, if they desire making contracts for corn and tomatoes. These contracts should all be taken in the next ten days. No one need raise anything for the canning factory, expecting to sell to them, unless they have a contract. It is necessary that all should plant the variety of seeds dictated by the factory, and that the factory should know just how many acres are going to be produced, in order to know how to buy cans, sell goods, etc.
